

Uploaded the [Ka-band Spotbeam coverage](#) of [Anik F2](#) satellite.

There we [reports on the web](#) that some of the Spotbeams (i.e. #6, 19 and 28) are inactive. Please [contact us](#) if you have additional information about inactive Spotbeams.

Anik F2 Ka-band coverage is modelled by [Paweł Magnowski](#) using his "[spotbeams designer](#)" software - thanks Paweł!
