

BAIKONUR COSMODROME, Kazakhstan, July 16, 2011

The ILS Proton Breeze M launched from Pad 39 at the Cosmodrome at 5:16 a.m. today local time (7:16 p.m. EDT, 11:16 GMT on July 15, 1:16 a.m. CET on July 16). After an 8-hour, 1-minute mission, the Breeze M successfully released the SES-3 satellite directly into geostationary transfer orbit. The KazSat-2 satellite, built by Khrunichev State Research and Production Space Center (Khrunichev), was delivered directly into geosynchronous orbit after a 9-hour, 24-minute mission.
